Truma product innovations 2015

American recreation powered
by German engineering

Introducing Truma quality and innovation

Truma is Europe's leading comfort specialist and system supplier for the recreational vehicle industry with a long tradition. Being named after the former US President Harry S. Truman, it is needless to say that we are proud to finally introduce our newest high-quality products to the North American market.

These products have been specifically designed for the needs of North American campers. So whether it is a heating system or a water comfort system – Truma's products and services will live up to our motto:

Truma AquaGo™ – a new generation of instant water heaters

Truma has developed a new generation of instant water heaters that are perfectly balanced to enhance the comfort of RVers on the road. Customers whose vehicles are equipped with the new Truma AquaGo™ will have a comfortable water temperature, while enjoying an unlimited supply of hot water without the risk of scalding.

Available Models

Truma AquaGo™ basic *

Truma AquaGo™ comfort *

Truma AquaGo™ comfort plus *

* Patent pending

Unique features

- At 60K BTU, the most powerful water heater on the market
 - Constant water temperature, even with high flow rates
 - Energy-efficient technology
- Temperature stabilizer maintains constant water temperature as water is used
 - Adjust temperature like at home for greater comfort
 - When showering, a constant hot water temperature is maintained even after the water is turned off, then back on again – no more scalding
 - Instantly obtain hot water directly from the faucet at any time (with AquaGo™ comfort plus)
 - Can be used even during freezing temperatures (with AquaGo™ comfort and comfort plus)
- Intuitive operation, like at home
 - Electronic control delivers constant water outlet temperature even with varying inlet water temperatures
- Simple maintenance with “Easy Drain Lever”
 - Integrated water diverter eliminates water stains on vehicle exterior
 - Reusable filter cartridge reduces scale particulates

Technical data	Truma AquaGo™ basic	Truma AquaGo™ comfort	Truma AquaGo™ comfort plus
Nominal input rate	20,000 – 60,000 BTU/h (5.9 - 17.6 kW)		
Fuel	LP Gas (Propane only)		
Fuel inlet pressure	10.5" - 14" wc (26.2 - 34.9 mbar)		
Fuel manifold pressure	1.3" - 10" wc (3.2 - 24.9 mbar)		
Nominal voltage	12 V DC		
Power input	< 1.5 A	< 2.5 A	< 2.5 A
Water operating data			
Water operating pressure	65 psi (4.5 bar) maximum		
Standard water outlet temperature	120°F (49°C)		
Water volume	0.35 gallons (1.3 liter)		
Shipping weight (approximate)	41.0 lbs. (18.6 kg)		
Weight (approximate)	34.2 lbs. (15.5 kg)

Truma Combi™ – the first forced-air combination furnace with integrated water heating function

With more than 20 years of reliable service in Europe and Australia, Truma Combi™ furnaces are the most energy-efficient and lightest heating systems on the market. They effectively combine warm air and hot water in one appliance.

Truma Combi™ furnaces offer much more operating convenience with the digital control panel Truma CP plus.

Variations

The following Truma Combi™ variations are certified and available for the North American market:

Truma Combi™ eco and eco plus

Truma Combi™ comfort and comfort plus

Unique features

- Near-silent operation
- Lightweight, space-saving solution
- Maintains constant temperature throughout RV
- Optional electric heating for furnace and water
- Highest available energy efficiency of more than 90%

Truma Combi™ Technical Data

Thermal Output

LP gas mode	Operating level 1	Operating level 2	Operating level 3
Combi™ eco	7,500 BTU/h	14,300 BTU/h	–
Combi™ eco plus	(2.2 kW)	(4.2 kW)	–
Combi™ comfort	7,500 BTU/h	14,300 BTU/h	20,400 BTU/h
Combi™ comfort plus	(2.2 kW)	(4.2 kW)	(6 kW)
Electric mode			
Combi™ eco plus	850 W	1,700 W	–
Combi™ comfort plus			
Mixed mode (LP gas + electric)	LP gas		electric
Combi™ eco plus (max.)	7,500 BTU/h (2.2 kW)	+	850 W
Combi™ comfort plus (max.)	14,300 BTU/h (4.2 kW)	+	1,700 W

Capacity of hot water tank	2.64 gallons / 10 liters
Water heating time from 59°F (15°C) to 140°F (60 °C)	approx. 23 minutes in Hot Water Boost mode (measured according to EN 15033)

Weight (without water and without peripheral equipment)

Combi™ eco	35.1 lbs. / 15.9 kg
Combi™ comfort	
Combi™ eco plus	37.0 lbs. / 16.8 kg

Gas supply

Our success has a history

It all started in the post-war years when Philipp Kreis developed a gas light so that he could teach in the evenings at his language school in Munich despite the power cuts. Back then he named his company after the US President Truman, who enabled Germany to be reconstructed with the Marshall Plan. Over 65 years later Truma has become a renowned innovative systems supplier for motorhomes, travel trailers, and mobile applications with a comprehensive product portfolio in the fields of heating systems, air conditioning systems, water and maneuvering systems, and gas and power supplies.

Harry S. Truman
and his letter of appreciation to Truma founder Philipp Kreis who named the company after the US President.
