

On Board Wheel Balancers For Trucks

Replacing Tires Sooner Than You Should?

Did you know?

Centramatics keep your tires in a state of constant balance, lowering your rolling resistance and reducing vibration. This smooth, balanced ride eliminates premature tire wear and improves your fuel economy,

which will **save you money!**

Every time you balance, it extends your tire life.

After installation of Centramatics, fleets are reporting these results:

Steer axle:

average 25% increase in tire life

Drive axle:

average 35% increase in tire life

Trailer axle:

averaging even MORE increase in tire life!

When balancing ALL wheel ends **we guarantee at least 25% increase in tire life overall**

Tire cupping caused by out-of-balance wheel assemblies.

24.5 steer tire with Centramatics.
• 221,325 miles •

Do you want THIS or THIS?

Installing Centramatic wheel balancers does not require any pre-balancing.

Centramatic wheel balancers installed.
